“To participate in today’s global job market, mastery of English can be your key to success...”

Dear Students,

With the pace of globalisation accelerating each year, today it is easier than ever before to have a career outside your home country. ELS is your way to globalize your education by making new friends from countries around the world and communicating with each other in English – friends to study with, learn from, and friends with whom to collaborate after graduation.

To participate in today’s global job market, mastery of English can be your key to success, providing you with a valuable skill sought after by businesses and institutions in hundreds of industries. English makes it possible for you to work in global organisations in any country, whether that country is English-speaking or not.

Since 1961 ELS has been the leading provider of English programs on university campuses and in exciting city centres in the U.S.A. Our English for Academic Purposes program is now available at ELS Centres in Australia, Canada, India, Japan, Korea, Kuwait, France, Malaysia, Panama, Saudi Arabia and the United Arab Emirates, as well as at more than 60 locations in the U.S.A. alone.

Thousands of ELS graduates enter nationally ranked undergraduate and postgraduate programs each year. The Ministries of Education of many nations sponsor scholarships for their top university students to study at ELS before entering graduate schools. ELS graduates become successful executives, entrepreneurs, artists, research scientists and educators. Many have high-level positions in government, including one ELS graduate who is currently a Minister of Education!

When you enrol at ELS, you are joining a global family. Your ELS classmates will be part of your campus social network of friends throughout your studies. And when you graduate, your international friends from ELS will become your international network, sharing job opportunities which will connect you to a world of opportunities.

Become a global citizen. Study with your family of the future at ELS!
